- Interlinked fire detection
- Housing Benefit and Universal Credit Accepted

Main Particulars

Nestled in a cosy setup, this home opens up to a warm living room adorned with a plush brown sofa accented by patterned cushions, creating an inviting atmosphere. The wooden coffee table centered on a stylish black and white rug adds to the charm, while the simplistic design of the lamp and the natural touch of pampas grass in a wicker vase enhance the serene vibe. A sleek black entertainment unit sits poised for leisurely days.

A touch of greenery is offered by a quaint window sill planter, setting a tranquil tone. Wall art is thoughtfully arranged in the adjacent room, infusing the space with inspiration and a homely feel. Each phrase and image on the wall art echoes a story of companionship and joy.

The kitchen area is neatly equipped with modern appliances, and the glossy black finish of the kettle and toaster is complemented by the copper accents. A small, yet functional breakfast bar with vibrant yellow stools injects a pop of colour and a dash of modernity.

The bedrooms, sanctuaries of rest, are furnished with comfortable beds, crisp linens, and ample storage space. They maintain privacy with individual locks, offering peace of mind. Soft towels neatly laid out signify readiness for a new beginning.

This house is more than a dwelling; it's a stepping stone to independence, designed to be shared and to foster growth for two care leavers embarking on their next chapter.
